

Mobile iWL250

The mobile payment terminal iWL250 is ideal for everyone who needs to bring the payment terminal to the customer. Mobile iWL250 is one of the smallest and most handy mobile terminals, with state of the art technology including high resolution colour screen and built-in contactless reader. Nets Technology provides security, reliability and user-friendliness.

Mobile iWL250 supports reading of cards and NFC-devices through contactless, chip or magnetic stripe and is designed to fulfill the highest hardware security requirements in the market (PCI PTS 3.X). Mobile iWL250 is smooth and efficient in use and the high performance battery ensures long operation time. The battery is easily recharged with the desktop base. Mobile iWL250 is available in two versions:

Mobile iWL250G - Uses GPRS communication

Mobile iWL250B - Uses Bluetooth communication to the base. The base is connected through a broadband connection.

PAY@TABLE SOLUTION

Nets' Pay@Table solution makes it possible to integrate Mobile iWL250B with the restaurant's cash register (ECR). Pay@Table enables interactive Bluetooth integration with the restaurant ECR and optimises the payment flow in the serving area.

MOBILE iWL250 BENEFITS

- Fast transactions, high performance battery
- Contactless ready HW supporting NFC
- Compact design and colour screen
- Always updated with compliant software from Nets

TECHNICAL SPECIFICATIONS

PROCESSOR:	ARM 7 & ARM 9
MEMORY:	32 MB RAM, 128 MB FLASH
SAM:	2
CHIP CARD READER:	1
MAG-STRIPE READER:	TRACK 2 & 3
CONTACTLESS (NFC):	YES
DISPLAY:	TFT COLOUR QVGA, 320 X 240 PX
SIZE:	78 X 165 X 54 MM (W X L X H)
WEIGHT:	300 GRAMS
ENVIRONMENT:	TEMPERATURE FROM - 10 TO + 45 DEGREES C
COMMUNICATION:	iWL250G: GPRS, iWL250B: BLUETOOTH CONNECTION WITH RESTAURANT ECR. BASE CONNECTED TO ETHERNET
