3 Beneficial owner information*

The legislation governing the identification of customers in the banking and financial industries requires us to obtain information on the ownership of the company.

The beneficial owners of a company are the natural persons owning or controlling more than 25% of the company's capital (capital, shares or votes), or who otherwise directly or indirectly control the company through one or more other companies.

Has the company previously provided beneficial owner information?

No - Company refers to a business name, a public listed company, or a state-owned or municipal organisations.

(Appendix for beneficial owners is **NOT required**)

No - No individual natural person owns or controls more than 25% of the company's votes or shares, either directly or indirectly through other legal persons.

(Appendix for beneficial owners is **NOT required**)

No - One or more natural persons own or control more than 25% of the aforementioned company's votes or shares either directly or indirectly through legal persons.

(Fill in the Appendix Additional Information on Beneficial owners)

Yes - This information remains unchanged / one or more natural persons own or control more than 25% of the aforementioned company's votes or shares either directly or indirectly through legal persons.

The company is obliged to notify Nets Oy in writing of any changes to the beneficial owner information within four weeks after the change has come into effect.

3 Settlement method (the settlement method that is used defines the reference information visible for the payment in the bank account statement)

(Switching over to daily settlements will introduce significant benefits for your company such as smaller banking fees. Instead of making several payments, Nets will pay daily settlement batches to your company's account as a single payment. You can monitor future payments and payments that have already been made via Card Acquiring reporting)

Gross settlement model (Settlements for card payments are paid in full) (This settlement model comes with a daily settlement with reference)

Net settlement model (Merchant commission is deducted from the paid card payment settlements)

Daily settlements with reference = merchant ID + payment date + check digit. (Daily settlement batches are gathered to one batch sum and paid as one payment to the Account of your company)

Batch settlement with merchant ID reference = merchant ID + batch number + check digit

4 Changes that pertain to administrator user IDs of Card Acquiring Reporting (Super Admin).
